

# I<sup>3</sup> Challenge 2017

**Theme:**

## **Transportation Inventions**

Travel from Los Angeles to San Francisco in 30 minutes? Cars powered by hydrogen fuel? Solar sails for space propulsion? Jet packs? What innovations can you design to improve transportation of humans, animals, or cargo? Do you have an idea to make crossing the street safer or cars more fuel efficient? ANY invention involving the area of transportation—from walking to space travel—is eligible to enter. Change your world!

The I<sup>3</sup> Challenge is optional. Students may enter any of the five I Cubed Inventions categories and be considered for the I<sup>3</sup> Challenge IF their project fits into the 2017 “Transportation Inventions” theme in any manner. The I<sup>3</sup> Challenge is a national competition. Students enter on-line at [www.icubedusa.org](http://www.icubedusa.org). The winner may be selected from any state. Deadline to enter: June 1, 2017. Winners posted at
